

Md Guljar Ansari

Java Backend Developer

guljaransari944@gmail.com | +91 6203579252 | Bengaluru, Karnataka | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | [LeetCode](#)

PROFESSIONAL SUMMARY

Java Backend Developer Fresher with hands-on experience designing and building REST APIs and full-stack applications using Java, Spring Boot, Spring MVC, Spring Data JPA (Hibernate), MySQL, Spring AI, WebSocket, and React. Strong foundation in Core Java, OOP, Collections Framework, Exception Handling, Multithreading, JDBC, and SQL, with working knowledge of Spring Security, Docker, Microservices, Apache Kafka, and AWS. Skilled in Git-based version control and Postman API testing. Seeking an entry-level Java Backend Developer role to build scalable, maintainable backend systems.

TECHNICAL SKILLS

- **Languages:** Java, SQL, JavaScript, Python
- **Backend:** Spring Boot, Spring MVC, Spring Data JPA (Hibernate), REST APIs, Spring AI, WebSocket, Spring Security
- **Frontend:** React, HTML, CSS
- **Databases & Tools:** MySQL, Git, GitHub, Maven, IntelliJ IDEA, Postman, Docker
- **Core CS:** OOP, Collections Framework, Exception Handling, Multithreading, JDBC, Data Structures & Algorithms
- **Currently Learning:** Microservices, Apache Kafka, AWS, System Design

PROJECTS

Google Drive Clone

Aug 2026 – Present

Java, Spring Boot, Spring Data JPA, MySQL, React

- Designed and developed 10+ secure REST API endpoints for file upload, download, update, and deletion, reducing manual file-handling steps by an estimated 40%
- Integrated MySQL via Spring Data JPA/Hibernate to persist metadata for 500+ file records with optimized query performance
- Built a responsive React UI supporting concurrent file operations, cutting average task completion time by roughly 25%

Banking Management System

May 2026 – July 2026

Java, Spring Boot, Spring Data JPA, Spring Security (JWT), MySQL

- Designed a secure banking backend with JWT-based authentication, supporting account creation, deposit, withdrawal, and fund transfer across 10+ REST endpoints
- Implemented transaction history tracking and admin controls (freeze/unfreeze/close account), improving auditability of 100+ simulated transactions
- Applied Spring Security and request validation to protect endpoints, reducing invalid/unauthorized transaction attempts by an estimated 30%

EXPERIENCE

Customer Support Engineer, Teleperformance

Aug 2025 – Nov 2025

- Resolved 500+ customer/technical tickets over 4 months, applying structured troubleshooting to identify and escalate root-cause issues
- Collaborated cross-functionally to streamline recurring issue-resolution workflows, improving first-response turnaround by 15%

EDUCATION

Bachelor of Science (Honours) in Computer Science, University of Calcutta

Sep 2022 – Aug 2025

CGPA: 6.0

CERTIFICATIONS

- Java Programming Certificate
- Problem Solving Certification

LANGUAGES & SOFT SKILLS

- English, Hindi
- Problem Solving, Team Collaboration, Communication, Analytical Thinking
